# SUGGESTIONS ON READING THE TRANCE LIBRARY FILES

by

WILLIAM ALLEN LePAR

I appreciate your interest in the information we have been receiving from [The Council](#), the spiritual source which speaks through the Trances. In all the years that I have been manifesting the Deep Catatonic Trance, I have learned a great deal from The Council, and I earnestly wish that you also gain a greater understanding of our existence.

These Library Files present information from The Council over a vast range of topics. In some cases, the information presented comes from one or two Trances that were usually held consecutively, within a few weeks or months of each other. In other Library Files, the information is selected from Trances held over many years. In all cases, if you study these Library Files carefully, you will notice a common thread of awareness that runs through all the information that The Council presents.

You may also notice that by the manner in which The Council presents the information, it becomes evident that they are layering awarenesses and insights. The observant reader will realize this progression of awareness and the unfolding of these insights.

These Library Files will not reveal their deepest insights to you with a casual reading. You must study them and reflect upon them. I would advise you to read the Library File at least twice and reflect on the information that The Council gives.

Again, thank you for your interest. I sincerely hope that you benefit from the Council's wisdom.

Sincerely,

SOL

# AN INTRODUCTION TO THE COUNCIL

by

**William Allen LePar**

The Council has often referred to themselves as "spiritual beings." We must remember that this is a very elusive term and means something far greater than what we normally have been taught to understand as "spiritual beings."

In our finite minds we look upon spiritual beings as living beings confined in similar manners as we in the physical, and this is not the case with some levels beyond the physical. But in this expanded description from The Council, we begin to realize that there are levels that we can reach as spiritual beings that far surpass our present concepts.

Respectfully, I submit The Council's own personal description of themselves.

## THE COUNCIL SPEAKS OF THEMSELVES

After a soul or an entity has accomplished a certain level or degree of perfection, through whatever system that is the ruling belief system of that time, then the individual or the soul or the entity is elevated to a level wherein it is not necessary for reincarnation. Once entering the spiritual realms without the need to reincarnate, a growth period is undergone. Many steps of awareness or many levels of awareness are accomplished, many degrees of elevation, many degrees of perfection until finally the soul, the entity has evolved into a state where there are no levels, no degrees, but begins to expand in love and awareness to the point where there is a total mergence or merging with other beings; where all ideas of limitations, all awarenesses of false limitations, have been done away with; where the person or the soul or the entity begins to realize its true unlimitedness and in that begins to expand greater and greater and greater, interweaving more delicately and more closely with all others and all other things, and in so doing grows closer to the Divine Himself. Once a soul or entity has reached this level, then they are in union with others, total union, yet completely individual, and yet completely united. This soul, this entity has its own personality, yet delicately flows in and out and with other souls but yet maintains its own personality, its own being. The soul, the entity becomes more god-like in that it becomes part of all things, yet maintains its own personality, its own being. Once a soul has reached this level then there is no name, there is no body as you would recognize or understand, but a more complete and unlimited **Child of God**, one who is so developed that no name could ever describe him. That is the existence we live in, and if you wish to use confining and restricting terminologies as levels, then we souls have to say that is the level we exist in. In all of mankind's history this level has never before spoken in the **physical plane**.

Even though we refer to ourselves as "spiritual beings," we use such statements only to give all who come to us some idea to relate to or some concept that they can relate to.

## THE TRANCE PHENOMENON

We believe The Trances of William Allen LePar are the rarest paranormal experiences known to modern man. The only example of a similar phenomenon ended with the death of [Edgar Cayce](#) in 1945. The Council's unparalleled revelations, through Mr. LePar's trances, are made available to the public through the SOL Association for Research. His time and efforts are without compensation, and SOL is a non-profit, tax-exempt concern dependent on the commitment of volunteers.

The following is a brief explanation of a Trance, so those without the opportunity to participate have a better understanding of the phenomenon. On the day of a Trance, Mr. LePar remains in a peaceful environment. He consumes little food and The Council recommends his diet include red shellfish. He engages in considerable prayer and meditation throughout the day.

Those participating in a Trance, to question The Council, gather about a half hour before the session for socializing. Nancy LePar, his wife, is always the last to leave her husband before a Trance begins. She sits with him in a separate room as he quiets himself with prayer and meditation. When she enters the room in which the trance is to be conducted, all talking and noise cease. Soon he enters, silent and already in an altered state. With everyone seated and quiet, he enters, removes his slippers and positions himself on the floor.

He wears, as instructed by The Council, loose clothing of all natural fabric. Also, Mr. LePar wears no metal other than a wedding ring and cross. As he rests his head and bare feet on pillows, he maneuvers his body into alignment with magnetic north. Those participating, following instructions from The Council, are to place themselves in a quiet, prayerful state as until this remarkable source begins to speak. There are two distinct time periods in the linking of LePar's spiritual vibrations with those of The Council. The first period concludes with LePar's extremely deep and rapid breathing, a form of [hyperventilation](#). His hands, folded across the abdomen, quiver; his left leg stiffens and his left foot extends. Then, suddenly, silence. It seems almost as if he has stopped breathing. Finally, The Council begins to speak -- slowly at first, repeating the name of the Trance moderator, until the link with the physical world is ready. It usually takes about thirty minutes from the time Mr. LePar lies down until The Council speaks. But on some occasions, for a variety of reasons, it can be as long as 45 minutes.

Once The Council begins to communicate, a Trance usually lasts between ninety minutes and two hours. The Council is offered the opportunity to give the gathering an opening statement, which has always become a segment of information useful for universal spiritual growth. Then, the trances follow a simple question-and-answer format, beginning with written questions and continuing with follow-up questions raised by The Council's comments. At some sessions, there are so many follow-up questions that only the first question asked will be from the list of written questions.

Afterwards, when Mr. LePar awakens, he remembers nothing. His memory is blank from the time his wife leaves him before each session until he awakens at the conclusion of the Trance. He is always physically drained, cold and disoriented. He is helped to a seat, wrapped in an afghan for warmth, and given a slice of bread and a glass of orange juice to help him recover.

We hope you profit from the information in these Trance Library Files. If reading a particular file gives rise to a question, we encourage you to contact us for more information. Thank you.

## FOREWORD

The Council has told us on many occasions that truth has always been available to mankind from the very beginning. As you read this Trance Library File, you may note similarities to information from other sources. You will also encounter new information. You may be surprised by some of the information revealed by The Council, to the point where it strains your credulity. The Council realizes this, and so they often begin a Research Group Trance with an opening statement such as this:

Again, a reminder as we have said before, we ask that you think about what we have said, the answers to your questions. It is not necessary to accept everything we say, but we do ask that you take the time to think on what we have said and hold it for possible use or acceptance at a later time. What is most important is that you do think, that you exercise your God-given mind. Use what you can use and store away that which is not serviceable at this time, for if you wish to see a dawn tomorrow with its clear blue skies, you must make ready for it now. If you cannot believe that tomorrow will be a better day than today, then it will not be so for you. If you do not carry the light of tomorrow, then where will it come from? If your tomorrow is not planned for today, then how can it exist? Forearmed with the knowledge of the path you are presently traveling, you are then in a position to create a better path for your travels tomorrow. The outlook for the children of the Divine is definitely a bright and sunny day. Only you can make the decision as to what your tomorrow will be. We have one distinct advantage over each of you, and that is we have gone through the process of life that you are presently experiencing and in those activities we have learned that one must never narrow their vision down to what they prefer to see, but it is great wisdom when one is willing to look at the total picture, even those segments that one wishes were not there.

Always keep this concept in mind: Use what information you can, and that which you cannot agree with, put it aside for now. Do not discard it, for you may find it very useful in the future.

Selection # 16<sup>(3)</sup>

Reincarnation<sup>(4)</sup> was discussed on 80-06-28<sup>(5)</sup>, the 78th Trance<sup>(6)</sup>.

The word "reincarnation was first found on page 1235, in line 387<sup>(7)</sup>.

386<sup>(8)</sup>

387 \*\*\*:<sup>(9)</sup> Since we believe in reincarnation, and apparently have experienced death a number  
388 of times, why do the majority of us fear death, and why do we not have a conscious  
389 awareness of what it is like beyond the veil?

390

391 C:<sup>(10)</sup> If you have reincarnated then evidently you have not fulfilled or let us say you  
392 have not taken advantage of the opportunities available to you while in the material  
393 manifestation, thus you have relegated yourselves to the man-made heavenly realms. The  
394 fear comes from a degree of awareness of the conditions in the man-made heavenly realms.

*Mysteries of the Universe*  
*The Bermuda Triangle*

*Selection # 1*

*The Bermuda Triangle was discussed on 80-08-08, the 80<sup>th</sup> Trance.*

*The word "Bermuda" was first found on page 1261, line 562.*

561 \*\*\*: Bill had asked questions sometime ago, and other people had the  
562 same question about the Bermuda Triangle, the area supposedly bounded  
563 by Bermuda, Miami, and the Bahamas where there have been a number  
564 of mysterious disappearances that have been reported. The question  
565 is if there are actual disappearances, could you please explain  
566 what is taking place in this area of the earth?

567

568 C: It is quite simple. What are you constructed of basically, or  
569 in its purest sense?

570

571 \*\*\*: Energy.

572

573 C: Very well. It is a form of electrical energy that we have  
574 referred to as the spiritual electricity. As it is manifesting in  
575 the material form, it becomes somewhat more gross, and it works then  
576 in the material form on a bio-electrical set-up. Do you  
577 understand?

578

579 \*\*\*: Vaguely, yes.

580

581 C: The currents in the body that are transmitted from the brain to  
582 other portions of the physical anatomy are done so through minute  
583 electrical currents.

584

585 \*\*\*: Yes.

586

587 C: All right. This electricity is instigated by the chemical

588 reaction in the body; the chemical reaction or composition is  
589 instigated by the soul or the entity. Now, the soul, the entity,  
590 functions through the organ that is referred to as the brain. As  
591 the soul stimulates that organ through the chemical reactions and  
592 interreactions, then it manipulates the physical form. It also  
593 maintains the physical form, the soul; its spiritual essence then  
594 maintains that physical form, the spiritual essence being a  
595 spiritual electricity. Now what transpires in your Bermuda  
596 Triangle is that the electricities, the natural electricities, or  
597 the magnetic forces of the earth and the universe, shall we say,  
598 come into collision at certain times. Those who are in the area of  
599 collision are simply "changed," to put it politely. The chemical  
600 compounds that make up the physical form are reverted back to a  
601 less solidified form of that compound. The "Bermuda Triangle" and  
602 the activity is an indication of the possible calamity that could  
603 transpire at the polar change or shift. You are dealing now with  
604 the forces of nature in their finest or purest sense in relation to  
605 the material manifestation; so that as the polar changes do occur  
606 time and reality will also undergo changes so that certain effects  
607 will appear to have happened instantaneously, wherein they will not  
608 have happened instantaneously but will have frozen in time. The  
609 Bermuda Triangle is a minor effect of this frozen in time. When  
610 the force fields are such, those individuals in those force fields  
611 are, shall we say, changed -- "frozen in time."

612

613 \*\*\*: Do they have a conscious awareness that they are frozen in  
614 time?

615

616 C: It would be wise to leave it at that, (\*\*\*).

617

618 \*\*\*: Thank you.

619

620 C: You cannot fully understand a further explanation other than to  
621 put it in a very crude form, such as being trapped in a dimension  
622 that is subject to influences from the material and from other

623 dimensions. It would have a tendency to be more uneasy than it  
624 would be informative, to go much further. Do you understand?

625

626 \*\*\*: There is a school of thought that that has something to do  
627 with the Lost Continent of Atlantis, dealing with pyramids and a  
628 crystal. Is there any truth to that?

629

630 C: The crystals are activated more than would normally be since  
631 below the surface of the once continent of Atlantis lie those  
632 things that have a tendency to cause the disruption in the force  
633 field, such as the gravitational force field, the magnetic force  
634 field, what have you. One of the instigating factors in the  
635 collapse of Atlantis was this that was forming then under the  
636 surface of that continent; this is all in preparation for the great  
637 change of the axis.

638

639 \*\*\*: (\*\*\*), do you have anything there?

640

641 \*\*\*: When you said, "for the great change of the axis," now would  
642 that indicate any change in the axis of rotation or only the shift of  
643 the magnetic poles.

644

645 C: The magnetic poles.

646

647 \*\*\*: You mean in preparation for the upcoming change or one that  
648 has occurred in the past?

649

650 C: The big change is coming.

651

652 \*\*\*: Let me ask you if there are other places on the surface of  
653 the earth that have similar properties to them?

654

655 C: Yes. Twelve, and they lie in a pattern.

656

657 \*\*\*: I have heard it said that the Sargasso Sea is similar. Is

658 that one of them?

659

660 C: The Sargasso Sea is part of the elliptical area that is  
661 referred to as the Bermuda Triangle. You will find that all these  
662 areas are elliptical in shape. "Bermuda Triangle" has a much more  
663 commercial sound to it than the "Bermuda Elliptical Area." There  
664 is a natural grid of forces on the globe. There are twelve. They  
665 run at the upper part of the sphere and at the lower part of the  
666 sphere; so that you can form, shall we say, geometric patterns by  
667 connecting them the proper way. This is a very natural condition  
668 and cannot really be referred to as phenomena, although man would  
669 probably choose to refer to it as a phenomena. These segments or  
670 elliptical patterns are or were at one time the magnetic poles of  
671 the earth. In the great change time will be definitely suspended  
672 and those who are present will be quite aware that time has been  
673 suspended. The influences of the heavenly bodies and the workings  
674 of those elements under the crust cause the reaction in these  
675 elliptical areas. Now, it could possibly be said that these are  
676 doorways to other dimensions, but this would be somewhat  
677 inaccurate. They are not truly doorways to anything but a  
678 refinement, if you wish to use those words, in one's experience or  
679 awareness; not necessarily indicating a positive situation, only  
680 indicating by the word refinement that there is a change from the  
681 gross material to possibly the gross of another dimension that  
682 could be influenced by other beings. You see, this all borders on  
683 reality and time; everything is related and is connected with all  
684 things.

685

686 \*\*\*: By other beings are you referring to human beings or beings  
687 who are not human beings?

688

689 C: There is no way of really answering that question, because who  
690 is to say what a human being is? It is quite possible that you  
691 could be frozen in a situation with other human beings; it is quite  
692 possible that you could be frozen in a situation with other beings.

693 \*\*\*: Yes. All right.

694

695 \*\*\*: Can we conclude that at some time these beings will be  
696 unfrozen and released from their suspended animation?

697

698 C: Hardly likely would be the safest answer at this present time.

699

700 \*\*\*: Would it be prudent then to avoid spots, like traveling  
701 through the Bermuda Triangle to avoid being caught up in this  
702 frozen state?

703

704 C: No, it is not necessary.

705

706 \*\*\*: It is not really a thing to be feared?

707

708 C: No.

709

710 \*\*\*: It doesn't have bad consequences?

711

712 C: No, not really. Your spiritual state determines much.

713

714 \*\*\*: Will the shifting of the poles take place all of a sudden or  
715 will it be a gradual thing?

716

717 C: They are beginning to shift at the present time. In fact they  
718 are in the process of change now. Masses are moving in the center  
719 of the earth, below the crust that will bring this about. Also,  
720 the influences of the heavenly bodies which are drawing these  
721 masses from their original position are at work at the present  
722 time.

723

724 \*\*\*: Thank you.

725

726 C: You are most welcome.

727

728 \*\*\*: I was wondering if these changes beneath the earth are part  
729 of what is causing Mt. St. Helens to erupt as much as it has?  
730  
731 C: All these things are related; all these things are related.

*Mysteries of the Universe*

*The Bermuda Triangle*

*Selection # 2*

*The Bermuda Triangle was discussed on 82-10-14, the 109<sup>th</sup> Trance.*

*The word "Bermuda" was first found on page 1758, line 361.*

359 \*\*\*: I was wondering is there any relationship, geographical, physical, or  
360 spiritual, to where Atlantis was and the place we know now as the  
361 Bermuda Triangle?

362

363 C: The Bermuda Triangle, as you call it, although it is more of an  
364 elliptical circle or area than any triangular shape, is basically one  
365 of the more populated areas of Atlantis or was. Does that answer  
366 your question?

367

368 \*\*\*: Is there any connection between the things we think do go  
369 wrong in that area and the negativity that may have existed in that  
370 densely populated area before Atlantis fell? Is there a  
371 relationship between those two?

372

373 C: Well, there is a relationship there, but you have not asked the  
374 right question. What you find in that particular area and you  
375 will find in a number of other areas across your globe is what at  
376 one time was one of the poles. In Atlantis or in its prime day or  
377 its highest point, they built, shall we say, a very large city in  
378 that general vicinity. Now, the unusual happenings do not truly  
379 come from what that city contained but more from the fact that at  
380 one time it was a pole. Do you understand?

381

382 \*\*\*: Yes.

383

384 C: So what you have in these areas then are warps, if we may use  
385 that term. These warps, based on the gravitational fields of the

386 earth and those in relationship to the gravitational fields of the  
387 whole universe, create an unusual situation or, shall we say,  
388 potential. One might say that there could be a relationship to  
389 that mighty city being built in that particular area if one would  
390 choose. The relationship would be based more on a spiritual concept  
391 than anything that you would consider physical. Very well.

392 \*\*\*: Well, when the Atlanteans built their city, were they unaware  
393 that this was a pole and that bizarre things could happen there?

394

395 C: There are areas, not unlike that which you refer to as the  
396 Bermuda Triangle, across all the land surfaces, and in most of  
397 these areas you will find buildings of worship. There is a natural  
398 sense in man to utilize these areas. Now again, these areas are  
399 far less greater than that area that you refer to as the Bermuda  
400 Triangle. The Atlanteans had that same sense that you have today.  
401 Now, we are not saying that these other areas were at one time  
402 poles, but there are a number of areas other than those that we have  
403 mentioned before that have unusual magnetic fields or magnetic  
404 fields that are not, how shall we put it, likened to the area  
405 around it, but then you are getting into a subject that would not  
406 serve any real purpose. Very well.

407

408 \*\*\*: Is it the magnetic fields that caused the ships and planes to  
409 be lost?

410

411 C: Yes, it is the magnetic fields that caused the disappearances,  
412 but it is when there is a fluctuation in these magnetic fields  
413 wherein it creates in its change what could possibly be  
414 described as a whirlpool effect. Now, again, you are getting  
415 into an area that would serve no true purpose and would become too  
416 complicated to understand. It is based on the fact that the  
417 material manifestation does not truly exist, but it is a matter of  
418 reflections of light on the spiritual source or spiritual energy  
419 that is the basis of what you know as creation. So it is actually  
420 shadows played upon this light source. Now, these forces that you

421 recognize as gravitational, magnetic, what have you, are all  
422 variations of the same spiritual source that you create your  
423 material out of. Where these, how shall we put it, basic spiritual  
424 forces feed your illusion, you can have then unusual phenomena,  
425 because this is the area then where the forces come and go as needed  
426 to supply or to sustain the material manifestation. Now, if you get  
427 into this area of understanding, which you will never be able to  
428 understand, you can no longer look at creation in the sense that  
429 you do; you must begin to take creation, now we are referring to  
430 all that you can see, your universe, your solar system, your earth,  
431 you can no longer then look at it in the sense that you see it; then  
432 you must begin, if you are to go into this area, you must begin then  
433 to lay it out as a flat plane or a grid that all this can be laid flat  
434 on; and from this grid that is underneath then the source of power or  
435 creation that you utilize to create the material manifestation,  
436 that is where you draw it from. It just so happens that the poles  
437 then that you recognize are based on what we might refer to as the  
438 cross-section of this grid; now we are speaking very loosely so  
439 that we can give you some picture or some idea of what is  
440 transpiring, only so much can be explained in this manner, then we  
441 will have to revert to another picture to go further, but as we  
442 said, it would serve no purpose, only more confusion.

443

444 \*\*\*: Thank you.

445

446 C: This is all in relationship to what we have said on a number of  
447 occasions about time and the flexibility of time and how all things  
448 are really existing now. You ask, "Where are we?", "Where is the  
449 past?", "Where is tomorrow?", "Where is up?", "Where is down?",  
450 "Where is heaven?", "Where is hell?", "Where are the different  
451 levels of your existence after you leave the material  
452 manifestation?", and we have told you they are all here, they are  
453 all now. You see, all these things are related. That is why, in  
454 certain areas, we have suggested that you not question any further  
455 because it would only add to the confusion. Your conscious minds

456 and its working are not capable of understanding how all things  
457 exist in less than a moment. All that you have experienced over  
458 all your years of awareness have not even filled up a moment; and  
459 from the point of creation to the point of your final state will  
460 barely fill up a moment. As you look back upon all your  
461 experiences in the material manifestation, and as you look  
462 back on the material manifestation itself as an experience once  
463 you reach your final destination spiritually, it will barely have  
464 existed. The totality of what you understand as creation will  
465 barely have existed. Its time in your awareness then will have  
466 been so short that you will not be sure whether it was a fleeting  
467 thought or an actual experience.

468

469 \*\*\*: Thank you.

470

471 C: You are most welcome.

472

473 \*\*\*: You spoke of the crystals of the Lemurians being used as  
474 crutches. We understand from publications we have read that  
475 the Atlanteans used crystals also. Was their great crystal put on  
476 the gravitational, the magnetic pole, of that time?

477

478 C: You must remember that the pole that exists in that area, is in  
479 reality a large area. They did not deliberately put their crystal  
480 on an active pole. It so happened that that had been the pole at  
481 one time. Do you understand?

482

483 \*\*\*: Yes, I do that answer, and then am I to understand that this  
484 great crystal has nothing to do with the activities of what we call  
485 the Bermuda Triangle?

486

487 C: The answer cannot be stated as no or yes. The fact that there  
488 is such an appliance in that area, and since it is sensitive to the  
489 magnetic fields, then it is part of the overall picture, but its  
490 activity is truly secondary. Do you understand?

491 \*\*\*: Yes.

492

493 C: As we have said before, those other areas have the same  
494 activity; it just so happens that you have not heard of it. They  
495 are not as popular, but if you were to truly do some homework, you  
496 would find that what you refer to as the Bermuda Triangle and its  
497 activities, they are not as isolated or as unusual as one would be led  
498 to believe, but there are other areas on the surface and on the water  
499 that have as much activity or, shall we say, they have as much  
500 unusual happenings, according to, naturally, the area in which they  
501 are located and the relationship to activities in those areas.

502 Now, we are talking about human activity. If an area is  
503 situated such where it has a great deal of travel, then you will  
504 hear more of these unusual activities, but if it is isolated where  
505 there is less activity or less population, then you will not hear  
506 of it as readily. Very well.

507

508 \*\*\*: This is not related to Atlantis, but I was just wondering  
509 would the location called the Superstition mountains in Arizona,  
510 would that be one of those kind of places?

511

512 C: Your scientists are not totally ignorant of unusual magnetic  
513 phenomena in certain areas of this country and other countries.  
514 These unusual phenomena can be reproduced by man so as to cause an  
515 illusion of actuality. There are places, even in this area where  
516 there are faults in the magnetic field that can create unusual  
517 phenomena, not of the magnitude of the Bermuda Triangle, but to  
518 such a degree that one would notice a difference. Does that answer  
519 your question?

520

521 \*\*\*: No.

522

523 C: No, it does not, so accept our answer as the answer.

524

525 \*\*\*: Okay.

526

527 \*\*\*: There are some areas on the globe where large groups of  
528 people will say that they feel particularly inspired or they feel  
529 particularly close to their God, perhaps they feel they have a  
530 greater understanding of their God in certain places rather than  
531 the location where they live. Is this strictly on a very personal  
532 basis or is there something about the energies in some locations  
533 that would cause that?

534

535 C: We have just spoken on that subject, on that very thing. There  
536 are some areas on the land where many churches or cathedrals are  
537 built that have, shall we say, small changes or variations in the  
538 magnetic field. Men are naturally drawn to these and they will  
539 build houses of worship in these areas, but what adds to this  
540 effect is the structure itself or its architecture.

541 \*\*\*: I am thinking particularly in terms of natural architecture  
542 such as mountains where many say they have felt inspired rather  
543 than a structure made by man?

544

545 C: No, there would be no large area as that. You must allow for  
546 man's imagination. Do you follow?

547

548 \*\*\*: "Man's imagination"? They just feel good, and there is no  
549 particular reason for that?

550

551 C: Well, one soul may feel good in this area or that area, and it is  
552 quite possible that particular individual could influence that same  
553 thought on many people when there is no basis for it. Do you  
554 follow what we are saying?

555

556 \*\*\*: Yes.

557

558 C: With answering a question like that, if we were to go into too  
559 specific of an answer, it would have a tendency to downgrade certain  
560 concepts. Do you follow what we are saying? There are some spiritual

561 concepts that are in existence today that claim that certain  
562 mountains are the home of great spiritual sources.

563

564 \*\*\*: All right, yes I follow.

565

566 C: Think on what we have said, and you will have your answer, just  
567 not as clearly as you may have hoped for. Now, what you also must  
568 understand, just because there is a church or a cathedral on every  
569 corner does not indicate that every corner has one of these teeny  
570 warps in the magnetic field. Do you follow?

571

572 \*\*\*: Yes.

573

574 C: Very well. But man can be drawn to small areas where there  
575 seems to be a good feeling. Now, this is truly a small area, and  
576 man has chosen to build some of his houses of worship on these areas  
577 or in these areas. Since the total creation of the material  
578 manifestation is based on these fields as a very active coherent or  
579 cohesion factor, then man finds himself somewhat attuned to it,  
580 knowing that there is some closer touch with that spiritual grid  
581 that we spoke of. Now, see when you get into this area you  
582 begin to go deeper than what you will be able to understand. To  
583 have any true concept of what we have just said now this evening,  
584 you would have to be able to look at the material manifestation  
585 as nothing more than a shadow or a grid of minute energy particles  
586 that derives its source from its underlying grid, and that they act  
587 then as a reflecting lens on a screen, and so it is your soul then  
588 that manipulates these power lenses, and its source derived from  
589 this basic grid. That was some of the thought that we attempted to  
590 instill in you when we gave you the example some time ago of  
591 projecting your life on a screen, where you were in a projection  
592 booth and you worked with others. If you will recall the example?  
593 So you may say then what you actually see is a screen with an  
594 element that reflects light or is activated by energy to form  
595 various shades of light or various degrees of shadow across an

596 existing light of a constant intensity. So now do you know any  
597 more than what you did before? You see, this is why we suggest that  
598 certain areas are not worth the effort. The only type of individual  
599 that would find an interest in this kind of information would be an  
600 intellectual, and they have enough problems without giving them  
601 any more. Now, we are talking about all types of intellectuals.  
602 There are some who seek their God, so they say, by attempting to  
603 understand things that they know they will never understand, thus  
604 they have the excuse, "I tried," when in reality they are only  
605 playing games. Very well.

## *Black Holes*

### *Selection # 1*

*Black holes were discussed on 78-10-09, the 49<sup>th</sup> Trance.*

*The word "holes" was first found on page 839, line 89.*

83 There are those souls who have, shall we say, at this time begin  
84 to leave the black hole, for now is their last effort to see the  
85 Light. Man does not know if there is such a thing as a black hole  
86 in space. He only theorizes that it exists, because of certain,  
87 shall we say, unusual phenomena or unusual areas of space, but  
88 just as there is a conscious state for the Light so there is a  
89 conscious state for negativity and the black holes that man is so  
90 interested in today is the realm of pure unadulterated negativity.  
91 Consciousness does have a mass to it but not in the sense that you  
92 understand mass, not in something that you can touch solid or see  
93 as a solid thing. It has a mass beyond your true understanding,  
94 and the black holes are the collection of the negative aspects,  
95 the negative entities. Many times in the (\*\*\*) readings you will  
96 find where there have been, shall we say, experiences on and in  
97 other planets or other systems. Those that can recall or have in  
98 their records such experiences are, shall we say, interpreting  
99 their existence in a realm of total negativity and their ability to  
100 escape such areas. Of course, in the (\*\*\*) readings you will not  
101 find this but that is because the soul in its communication with the  
102 soul of (\*\*\*) has had such, shall we say, a terrifying experience,  
103 that even that part of the soul that communicates with another part  
104 of the soul when manifesting in the physical cannot tolerate the,  
105 shall we say, hell it had endured in those areas so it dresses it  
106 up in a more palatable form such as an experience on or in another  
107 planet or a solar system. Beware children. Beware. The fires of  
108 Light can burn within you and burn brightly so that all of those  
109 that you come in contact would be warmed by your true Christ-like  
110 love, for just as a flame can be used to create a warmth, beware

111 that that flame within you does not work in the opposite, a

112 chilling freeze.

## *Black Holes*

### *Selection # 2*

*Black holes were discussed on 79-03-03, the 58<sup>th</sup> Trance.*

*The word "holes" was first found on page 955, line 169.*

169   \*\*\*: Could you give us some information on the black holes in the  
170   universe?  
171  
172   C: We have covered this already. You see, there is nothing really  
173   that man has that proves absolutely that such things do exist, but  
174   through man's intellect he assumes that they do exist because of  
175   what he has formulated. Now, an interesting thing. Man comes to  
176   knowledges or information as the time is right, and what man refers  
177   to as black holes, shall we say, that something does exist but  
178   far different than what he thinks exists. All that is above, is  
179   below; and this is a constant in all of creation. What is out, is in.  
180   What is here, is there. What is white, therefore there must be  
181   a black. The black holes, as man refers to them, is only man's,  
182   shall we say, outer glimpses of what one day this earth will  
183   be a part of. It is not a black hole as one would think. It  
184   is an area in creation that is so without God that it has become  
185   extremely dense, and as the time comes in the future that this  
186   earth and those who are attached to it, can no longer accept the  
187   Light, can no longer accept God, can no longer accept His Love,  
188   Christ, the density will become so, shall we say, extreme that it  
189   will become a part of what man now refers to as a black hole. As man  
190   envisions heaven, so must he envision hell; and the time comes now  
191   when he begins to glimpse what hell will consist of. After that  
192   period of hell has, shall we say, come and gone, then it will no  
193   longer exist.  
194   Man will discover things that will only constantly amaze him and  
195   astound him to show him that regardless of how wise he may think he

196 is, regardless of how much experience, how much ability he may have,  
197 there will always remain one thing unanswered; there will always  
198 remain the need for faith for complete awareness. Man will seal his  
199 own destination in that area. Now we are not talking about the  
200 children of God. Since God works in natural ways, the time is coming  
201 when this universe will have, shall we say, had its time, its season,  
202 and so it must pass as other universes have; and since God has sent out  
203 in the beginning in the spirit, so in the material He has sent out  
204 His sun, now we are speaking of the light, physical light that bathes  
205 the earth. His sun has, shall we say, placed its children round and  
206 about its house. It has not thrown those children out haphazardly  
207 but very accurately, very precisely; and as the sun becomes old and  
208 its power weakens, then its children must return to it to fortify it  
209 and give it new life; that is in this, shall we say, planetary  
210 family; but in this constellation the same thing exists; and as this  
211 constellation becomes old and its sun, its father, needs  
212 nourishment then its children shall return. Do you understand what  
213 we are saying?

214

215 \*\*\*: Yes.

216

217 C: You realize we are using symbolism.

218

219 \*\*\*: Yes.

220

221 C: But there is a purpose for this giving out and returning; there  
222 is a purpose. As the children grow, that have been sent out, in  
223 spirituality, they then should radiate or emanate that spirituality,  
224 that strength to fortify the father or the sun, in that case then  
225 there would be no need to return, but in this fortification then  
226 everything is elevated to a higher degree. Man has not chosen such a  
227 path, and so, in doing, man has set his seal to the clay which spells  
228 return. It must then be that all return to its original source, and  
229 as the laws of nature go, such things become more dense, more  
230 compact; and in all of this constellation this will happen; and as

231 time goes, all constellations will merge into something much more  
232 dense, much more compact, much more solid, yet without being solid;  
233 and eventually all these black holes will then move together; and at  
234 that time then what will exist will be nothing but the light, for  
235 they shall devour themselves into non-existence; but, of course,  
236 this goes far beyond the limits of the Bible or far beyond the time  
237 that the Bible speaks of; yet one would think from those words that  
238 who has that to worry about. That shows the foolishness of man,  
239 for he thinks time is sixty seconds, sixty minutes to  
240 an hour, and twenty-four hours to a day. Not so, not so. Time  
241 is nothing more than a signpost; and it only exists to the extent  
242 that it is necessary for a point of reference; and even though man  
243 thinks he may live sixty, seventy, eighty years, ninety years or  
244 a hundred years, he has barely even existed in reality; but this  
245 is what man has chosen, a shadowy play, an illusion of existence;  
246 and in this phantom world, this illusion, this cave of shadows, he  
247 decides through a number of experiences whether he will become part  
248 of the Light at the very end or whether he will become non-existent  
249 at the very end.

250 If you would pursue the avenues we have suggested, by now you  
251 would have made great headway, and you would then begin to understand  
252 the functions of the mind which would have given you a glimpse of how  
253 the soul or the spirit works; and how really, shall we say,  
254 illusionary the material existence is, yet it is absolutely necessary  
255 for each of you. What affects man's life today, (\*\*\*) , is not what  
256 he is doing now but what he has done in the past, and what he is  
257 doing now will affect his tomorrow. Man cannot be, shall we say,  
258 cured or helped unless the soul chooses to do so; and the soul must  
259 work through the mind; and the mind must then work through the brain;  
260 and so as the chemical actions take place in the brain, it instructs  
261 the body to do what is necessary.

262 Black holes do exist but not as man understands them and not for  
263 the purpose that he thinks. Those are the natural areas where God  
264 cleanses what man has defiled. They do not exist in the form that  
265 man thinks they exist, but it is a focal point where all negativity

266 collects and is held till it is destroyed; for negativity cannot be  
267 cleansed per se but can only be destroyed. Not the technical  
268 information you had hoped for, but that which would be more  
269 useful.

*Other planets were discussed on 75-08-01, the 12<sup>th</sup> Trance.*

*The word "saucer" was first found on page 156, line 455.*

439 \*\*\*: Yes. Could you relate to, as far as this is concerned,  
440 if there are any higher spiritual beings known to us on the  
441 earth plane as "space brothers"?

442

443 C: Does one make reference to the machines in the air that are  
444 commonly referred to as the "flying saucers"?

445

446 \*\*\*: Yes.

447

448 C: Does one see them?

449

450 \*\*\*: Not through physical eyes.

451

452 C: One sees them through physical eyes. They do exist. There  
453 are two elements also, positive and negative. It is more a  
454 question of one's physical attunement to certain visual wavelengths  
455 that can cause certain people to see the "flying saucer"  
456 or not to see it. Also, the condition of suggestion will attune  
457 physically so that the eye may see. Does this answer your question?

458

459 \*\*\*: Yes, thank you very, very much.

460

461 C: One must keep in mind that not all as they are called "space  
462 brothers" are of the positive nature. Are there any questions?

572 \*\*\*: What makes some people see the flying saucers and what do  
573 people who have been contacted by the flying saucers have in  
574 common?

575

576 C: We would prefer to bypass this particular question. In  
577 bypassing we leave one word of caution. Not all that seems to  
578 be a brother to you necessarily means that they are a brother  
579 to you. As there are good and bad within each and every  
580 individual, within each one of you, so there are good and bad in  
581 everything. Very well. Next question.

## *Life on Other Planets*

### *Selection # 3*

*Other planets were discussed on 77-09-24, the 32nd Trance.*

*The word "planet" was first found on page 479, line 578.*

547 \*\*\*: Are there physical beings as we think of them on other planets  
548 throughout the universe?

549

550 C: Your thoughts on physical beings and as you think of them, shall we  
551 say, is not quite that firm to make a real comment on the question,  
552 but there are other beings in the universe and some do resemble what  
553 you consider the physical form.

554

555 \*\*\*: Do they have an awareness of Jesus Christ?

556

557 C: To be sure through all of God's creation there is awareness of  
558 His Divine Son. Now this does not necessarily mean that they know  
559 Him as Jesus Christ, because there are those entities who are much  
560 closer to God than you and this group and this world.

561

562 \*\*\*: Could you tell us a little bit more about that?

563

564 C: There are expressions in this physical form that do not take on  
565 physical form. There are beings in the universe that do not take on  
566 physical form such as you understand physical form. Also there are  
567 some beings in the universe and all that is created that their form  
568 is a conscious state and not a bodily state, you see. And then, of  
569 course, there are those forms in the universe that have a state that  
570 they exist in, as far as the physical, that would be completely  
571 alien to your sight. But one should always remember that just as you  
572 have good and evil here, as you have positive and negative here, so  
573 do you have positive and negative elsewhere.

574

575 \*\*\*: Did Jesus Christ have to go through the death experience then  
576 for these other planets that are aware of Him?

577

578 C: Let us keep our attention to this planet. You allow the Divine  
579 Father to deal with those beings the way He chooses. You have all  
580 you can handle taking care of your own little world. There is no  
581 limitations to love, and love is the basic energy that created all  
582 that man knows in the universe, and so that love is constant in all  
583 that creation. Deal with your world, and let God deal with the rest.

584

585 \*\*\*: Did we always reincarnate on this planet?

586

587 C: Yes.

588

589 \*\*\*: Always?

590

591 C: Always.

592

593 \*\*\*: Is there a reason for this?

594

595 C: Yes. You are part of this expression. You are working your  
596 situation, your development in this place. Now when we say, yes, you  
597 have always been here, we will not, shall we say, close the door on  
598 that.

599 \*\*\*: What do you mean by "close the door on that"?

600

601 C: In other words, shall we say, you do not know all that has  
602 transpired and so in that to your situation now, no one has ever  
603 experienced life or reincarnated life on another planet, you see.  
604 But as we said in the past you are living in the New Testament of the  
605 Cosmic Bible, you see. So, shall we leave it go at that?

606

607 \*\*\*: What is the Old Testament of the New Cosmic Bible?

608

609 C: That is, shall we say, when you existed in your purest state.  
610 That is when God the Father and God the Son and God the Holy Spirit  
611 all worked and walked with you hand in hand, and it was at that time  
612 then when you decided to worship yourself as god. And thus in doing  
613 so you fell from that very Source of Life. You lost your full,  
614 glorious existence so that you had to take on a grosser form to, shall  
615 we say, sustain your existence and so we have a little clearer  
616 description of the Garden of Eden.

617

618 \*\*\*: What is the New Testament of the Cosmic Bible, then?

619

620 C: This very part that you understand from the Book of Genesis,  
621 not in that it was supposed to have taken place a few thousand years  
622 ago, but in man's physical consciousness. Shall we say this. The  
623 Book of Genesis is a story that goes, that has its beginning long  
624 before even Atlantis, long before even Lemuria. You see? And that  
625 is where the New Testament starts. When spirit actually made its way  
626 into the physical. When spirit decided to reject the living life of  
627 the Divine and, shall we say, in its small way too infused in the  
628 physical but because its purpose was self-motivated and selfish it  
629 could not extract itself then, you see. So it became stuck because  
630 of its own selfishness. It is like a fly on flypaper. Its nosiness  
631 and its own selfishness causes it to stick.

## *Life on Other Planets*

### *Selection # 4*

*Other planets were discussed on 78-05-06, the 44th Trance.*

*The word "planets" was first found on page 722, line 227.*

174 \*\*\*: Thank you. I have a question about information that you had  
175 given in reference to the land movements and you were talking about  
176 South America and you had said about South America disconnecting from  
177 the larger land mass. You said, "Also in this process then this allowed  
178 a shock wave to disconnect what is now presently known as the South  
179 American continent. It began to move east from the existing  
180 continent." I had a question. Did you mean west there? And, if so,  
181 could you explain why there would be a discrepancy?

182 C: The problem with giving such complicated moves as that is the  
183 changing of the poles then dictates the direction whether it be east,  
184 west, north, or south. In that particular case the poles were in  
185 such a position where the movement stated is correct.

186

187 \*\*\*: I see. But then looking at ...

188

189 C: We did not wish to go into the movements of the poles. The  
190 moving of the continent of South America according to today's  
191 situation, it would have moved west of Africa.

192

193 \*\*\*: Okay.

194

195 C: Now, that is according to today's situation.

196

197 \*\*\*: All right.

198

199 C: We were thinking possibly of delivering some information on the  
200 polar changes, but under the situation as confusing as the land

201 movements are, the polar movements would be even more confusing  
202 because then you would not know which direction what was moving when.

203

204 \*\*\*: Okay. Thank you.

205

206 \*\*\*: Could you tell us when they are going to move again? Are they  
207 in a state of constant movement?

208

209 C: They are in the process of moving now or, shall we say, they are  
210 in the process of making ready for the move.

211

212 \*\*\*: Is this a magnetic process? Magnetic poles?

213

214 C: Yes, the poles. We are referring to the magnetic poles which  
215 determines north and south.

216

217 \*\*\*: What causes them to move?

218

219 C: Well, if you have, shall we say, six or eight months, we would be  
220 glad to give you a detailed breakdown on what causes such things to  
221 occur. Since you do not, we will attempt to condense it which can be  
222 somewhat dangerous. There are many small things involved in causing  
223 polar movements or the magnetic poles to move. One is the changing  
224 of the masses of metal in the core of the earth. As these segments  
225 of metal move from place to place, this causes a lopsided effect.  
226 Then you have, also, the movement of the celestial bodies, the  
227 heavens, the stars, the planets, and everything is interrelated.  
228 Some of the planets and stars in the entire galaxy have a direct  
229 effect on each other, and the earth is not exclusive of this effect  
230 and so as these planets and these stars move, the effects increase or  
231 decrease accordingly, and this causes the collection of masses of  
232 metal then in the inner part of the earth to pull to one side, and it  
233 is the accumulation of these metals or elements and their, shall we  
234 say, structure that causes the poles to move from one place on the  
235 face of the earth to another.

236

237 \*\*\*: That's very interesting. It's also very scary.

238

239 C: And it should be.

240

241 \*\*\*: Is this ...

242

243 C: In such times when the magnetic poles have moved you have had  
244 tremendous catastrophes on the surface of the earth. You cannot  
245 truly imagine an entire continent being ripped wide apart such as the  
246 occurrence in Mu in the first break-up. There you have a land mass  
247 almost as large as the United States being torn completely in two;  
248 not over a period of years, but in seconds, ripping apart and  
249 dropping. What chance would anyone have? Not even in the air were  
250 they safe because of the violent reaction of the molten core; the  
251 water, the steam, completely annihilated everything in the air and on  
252 the land, and the shock of that was felt around the entire globe and  
253 such catastrophes as that warped the time as you know it. So even  
254 time, as you are aware of it, undergoes a certain shock or change.  
255 There is something almost as you would understand a state of  
256 suspended animation. Look what happens when you have a, shall we  
257 say, slight tremble on the face of the earth such as that that  
258 destroyed the city of San Francisco some years ago. That was  
259 nothing. We would not even consider that a breath, let alone a  
260 sneeze.

261

262 \*\*\*: Then the earth really is going to go through catastrophe again.

263

264 C: That is what we have been telling you.

265

266 \*\*\*: I have been trying to rationalize it by thinking we would just  
267 go into a higher state of consciousness.

268

269 C: Yes, and that is the very thing that has brought these things  
270 about, rationalization, rationalization. That is exactly the tool

271 used by negativity.

272 \*\*\*: Apparently, even the scientific community is concerned.

273 There's talk about when the planets will be aligned.

274

275 C: Oh, tut, tut, tut. They do not know anything.

276

277 \*\*\*: All right.

278

279 C: They are a bunch of intellectual snobs that sit on their pompous  
280 butts.

281

282 \*\*\*: Since (\*\*\*) mentioned the scientific community, is there any  
283 validity to the studies of (\*\*\*) and his books and some of the  
284 theories that he has come out with?

285

286 C: Well, the old man has something under his belt.

287

288 \*\*\*: He states that the year used to be 360 days instead of 365.

289

290 C: As we said, he has something under his belt. He is more in the  
291 know than the scientific community is.

292

293 \*\*\*: I see.

294

295 C: There were times when the earth rotated much quicker, much slower;  
296 when the traveling path around the sun was much greater, much  
297 shorter. There are cycles and those cycles are, shall we say, part  
298 of a universal clock or a cosmic clock wherein they are repetitious,  
299 and so the earth is coming into another one of these times where  
300 tremendous catastrophes will come about. Some people feel that the  
301 continents move only fragments or inches a year. The continents are  
302 moving feet, feet a year; in some cases 15 to 20 feet a year. The  
303 entire surface of continents are moving, but man is too preoccupied  
304 with his materialistic attitudes to even see. Measure the height of  
305 a hill one year, and go back another year and measure that same hill

306 and see the change therein, but it is best that man does not recognize  
307 these things, for if he did we would have a panic break out like you  
308 would not believe. Everything goes for the best, believe it or not.  
309 Thank your Maker all of you are where you are.

310

311 \*\*\*: Do you mean physically or spiritually?

312

313 C: Physically and spiritually, because if you were not spiritually  
314 prepared, you certainly would not be here physically or at least at  
315 the time when it counts. Yes, this is the safe area.

316 \*\*\*: Did you say something along the lines that there were other  
317 safe areas? Would you care to give us any indication of where those  
318 locations are?

319

320 C: Yes, tend to what you have to do here. That is your indication.

### *Selection # 5*

*Other planets were discussed on 79-09-01, the 67th Trance.*

*The word "planet" was first found on page 1096, line 788.*

782 \*\*\*: If a soul desires to be reborn, is it necessarily reborn on  
783 this earth or could it be in one of the other solar systems?  
784  
785 C: Everything has its place and its time. You that are  
786 manifesting in the material manifestation of the Earth are here  
787 permanently. When you come across such information as the soul  
788 moving from planet to planet, what you are running into is a  
789 confusion, a misunderstanding, a misinterpretation. As you come  
790 in, you are born under certain signs, and these signs are very  
791 influential; and at times the ruling planet can be so strong in  
792 that life experience that as the soul re-enters and it has recall  
793 then, this is when they re-enter into the material manifestation  
794 and have recall of past lives, sometimes the recall can be confused  
795 and the experience placed on another planet or in another galaxy.  
796 This is not the case. Everything has its natural order. As you  
797 come into this material manifestation, you either bring a karmic  
798 situation or you rid yourself of a karmic situation or you create a  
799 karmic situation, and you are responsible for that situation, that  
800 karmic debt, so your re-entrance would be only in that area where  
801 your karma has been developed; consequently, you will enter into  
802 the Earth over and over and over again. You cannot, shall we say,  
803 leave your dirty linen here and move someplace else and leave dirty  
804 linen there. You must take care of what you have left behind.  
805 Does that explain?  
806  
807 \*\*\*: Yes, thank you.  
808

809 C: You are most welcome. You see, there are many philosophies  
810 that man has that are clouded over with misunderstanding, not  
811 always intentionally, but because man cannot see as clearly as he  
812 thinks or hopes he can see; and our purpose is to wash away some of  
813 the misconceptions and misunderstandings. Even in that there is a  
814 danger in that at times we will have to give you pictures because  
815 there are no words to give you the specific answers, and in these  
816 pictures there, too, could be a misunderstanding, and we can only ask  
817 that when we paint a picture for you to explain a situation, you  
818 consider well the text in which we have given it to you, so that  
819 you do not become responsible for adding more confusion. Very  
820 well.

*The word "planet" was first found on page 1781, line 514.*

273 \*\*\*: (\*\*\*) had another question. Of all the souls, what

274 percentage is in the Celestial Level?

275

276 C: Based on what?

277

278 \*\*\*: (\*\*\*) isn't here, but I would say based on all the souls that

279 there are or that have been created.

280

281 C: Probably one should reconsider the question and place it in,

282 shall we say, a better foundation.

283

284 \*\*\*: Are there more souls in the Celestial Level than there are in

285 the material manifestation?

286

287 C: Far, far greater, because you must remember that all the souls

288 that were created and that found a need to separate from its

289 Divine Source does not mean that they all came to what you

290 understand as the material manifestation.

291 \*\*\*: You mean, some separated and didn't go as far down?

292

293 C: We have stated that before, but wouldn't it be presumptuous to

294 assume that the only state of existence is what you are able to see

295 and touch and smell?

296

297 \*\*\*: I'm still looking at four, aside from the Godhead itself,

298 four existences, the Celestial, the Angelic, the Spirit, and us. I

299 imagine there is a big gap between the last two. Are there others

300 beside the Man-Made Heavenly Realms and so forth? Are there other  
301 stops for souls who didn't come as far down?

302

303 C: The Man-Made Heavenly Realms and the God-Made Heavenly Realms  
304 that we have described to you deal only with the material  
305 manifestation that you are aware of.

306

307 \*\*\*: Are there other material manifestations? Or other material-  
308 like manifestations?

309

310 C: Yes.

311

312 \*\*\*: Would you care to elaborate at this time, please?

313

314 C: If we find difficulty in instilling understanding to you about  
315 what relates to you, we will never be able to explain what goes  
316 beyond. There are other states of existence, believe us, that have  
317 nothing to do with the material manifestation where other souls  
318 have gone. Our efforts are to help you understand what you must  
319 deal with.

320

321 \*\*\*: All right, thank you.

322

323 C: You are most welcome.

324

325 \*\*\*: These other existences then that have nothing to do with a  
326 material manifestation, then they have nothing whatever to do with our  
327 universe, what we consider the universe is our material  
328 manifestation?

329

330 C: Again, this is a night of questions that cannot be answered  
331 quite so simply, it would seem. The Lord God set out a form for  
332 all His souls, all His creations, all His children, to utilize when  
333 they decided to separate from their proper state of existence.

334 What those souls chose to do with that form was their decision. Do

335 you understand?

336

337 \*\*\*: Basically, yes.

338

339 C: So far.

340 \*\*\*: So far, yes.

341

342 C: Very well. (\*\*\*) , think of yourself. Think of yourself as a  
343 living human being. Think of your wife and your children. You, as  
344 souls or group of souls, decided to take that essence that God the  
345 Father gave for your return, you decided to use it in the manner  
346 that you can observe now. Do you understand?

347

348 \*\*\*: Yes.

349

350 C: But what of your other brothers and sisters who chose to take  
351 that same essence and utilize it in a different manner for their  
352 return? All those souls that chose to utilize that form or that  
353 energy or that means of return involve themselves in what you know  
354 as the earth and its part in all the creation that you can observe,  
355 they must deal with that forever in this sense, that since they  
356 chose that standard or that plateau or that form and all the debt  
357 that they have added to or taken away must be dealt with in that  
358 form and only that form. Do you understand?

359

360 \*\*\*: Yes.

361

362 C: They cannot leave this stage that they have created or this  
363 scenario that they have created and move to some other form or some  
364 other scenario. They are forever entrapped until they can leave that  
365 creation permanently. Do you understand?

366

367 \*\*\*: Yes.

368

369 C: Are you sure?

370

371 \*\*\*: I get the idea that X amount chose what we know as the  
372 material manifestation and earth and some others didn't, I don't  
373 know where they are at, but there are obviously others out there  
374 somewhere, doing something similar to what we are, trying to  
375 overcome their debts.

376

377 C: Very well. Continue. What of those who have chosen this form  
378 as you understand it?

379

380 \*\*\*: We have a standard that we have to achieve to overcome our  
381 difficulties here, and I would imagine that in other forms they  
382 have a standard that is a similar requirement to overcome their  
383 difficulties.

384

385 C: Yes. Now, remember, the stage on which you choose to perform  
386 you are tied to until you correct the conditions that you made  
387 of yourself. Do you understand?

388 \*\*\*: Yes.

389

390 C: Very well. All should understand this. If we use the term  
391 "dimension," which makes us cringe since it conjures up Lord only  
392 knows what, but if we can look upon this creation that you know as  
393 the earth and the solar system and what have you, in this dimension  
394 that you find yourself now, you are forever tied to that stage or  
395 that dimension until you are able to return to your Creator. You  
396 are in this activity to better yourself or perfect yourself. In that  
397 process though it is a rising and a falling, and in the falling then  
398 debts are established that must be corrected one way or another,  
399 sooner or later, and because of that then you cannot move to another  
400 dimension to correct or achieve your at-one-ment. So those souls  
401 that are utilizing another state of existence or another dimension  
402 find themselves entrapped in that as tightly and as securely as  
403 you find yourself entrapped in what you know as existence.  
404 Now do you understand more clearly?

405

406 \*\*\*: Yes.

407

408 \*\*\*: This may be an oversimplification but the way I understand it  
409 is that we as fallen souls chose almost like a school, our material  
410 manifestation is a particular school that we chose to go and learn  
411 and correct whereas other souls chose another form which would  
412 become another school, and they are stuck in that school until they  
413 graduate, until they reach the Godhead, and we are stuck in this  
414 school until we graduate or reach the Godhead. Do we have any  
415 relationship with each other in the way of influence? Do they  
416 influence us or do we influence them in any way?

417

418 C: No. All that you are a part of or as you term school, the path  
419 back to God the Father and your original state of creation is built  
420 or has been built over the eons of time by each soul's personal  
421 activity within that school; and the influences, both positive and  
422 negative, stay with that particular school. So if one school  
423 achieves a greater degree of spiritual accomplishment, it does not  
424 affect or influence the school beside it. In the same manner, if one  
425 school has an academic standing of some lower degree, it does not  
426 influence those beside it. You are in your creation, and you can  
427 only influence your creation and that path that has been built back  
428 to God the Father. As some consolation, most of the other, again  
429 the term, "dimensions" have experienced a cycle of spiritual  
430 evolvment where they too have received the influence of Christ.  
431 Very well.

432

433 \*\*\*: So that means even where you are at now, the Celestial Level,  
434 and the two below, the Angelic and the Spirit Level of the God-Made  
435 Realms, those belong only to this dimension; so you have none  
436 of the souls from those other dimensions with you now in your  
437 level?

438 C: No, but our brothers and sisters who have traveled other  
439 dimensions have to some degree, if their activities, now pay

440 attention, if their activities were in some way related to what you  
441 and us have created, they would have a comparable state of transition  
442 in the spiritual or growth in the spiritual. We are aware of those  
443 brothers and sisters from other dimensions who are in what could be  
444 compared to as a spiritual state or equal to our state, according to  
445 their experiences or their creations. Do you understand?

446

447 \*\*\*: Yes.

448

449 C: We speak to you because we have traveled the same road that you  
450 have, but we could not speak to those other dimensions, for our  
451 experiences have been with this and not that. The final product is  
452 the same. Do you understand?

453

454 \*\*\*: Yes. We are all going back to the same God, the same Creator.

455

456 C: That is right. We all must achieve the same degree of love,  
457 and that is the key to returning to your God, that is the key for  
458 us returning to our God.

459

460 \*\*\*: Since we are all trying to reach the same goal, are we all  
461 being harassed by the same negativity? Do you know what I mean?

462

463 C: Yes. The force of negativity, shall we use those terms, the  
464 force of negativity plays through all. It has a part in all. The  
465 difference being to what degree does one dimension or one state of  
466 existence accept it as opposed to another dimension or another  
467 state of existence. Do you understand?

468

469 \*\*\*: Yes.

470

471 C: Just as you have negativity or evil here in your state of  
472 existence, other states of existence or other dimensions or other  
473 paths have their degree of negativity, in some cases more  
474 pronounced than in other cases. Very well.

475

476 \*\*\*: In some of these other dimensions, is it possible when the  
477 souls leave that dimension, can they merge with the Godhead  
478 directly without going through other levels like we have to go  
479 through?

480

481 C: It would depend on the individual path of growth that that  
482 dimension has constructed. Again, you are thinking in terms of few  
483 numbers, when in actuality what exists beyond this dimension,  
484 again, goes into figures that you cannot comprehend. You are too  
485 used to thinking in very restricted terms because of the creation  
486 that you are responsible for, and so everything then is compared to  
487 that creation and you must learn to think beyond that. There are  
488 states of existence that you cannot even begin to comprehend. As  
489 we have said some time ago, there are states of existence where the  
490 very crude or the very base form of existence is a conscious state  
491 being. Now, if that be the very base or the very crude or the  
492 furthest from the Divine Source, what road must they travel then to  
493 reach God? Do you see? It becomes a situation that the mind  
494 cannot even begin to conceive. That is why there are certain areas  
495 that we prefer to keep away from, because they serve you no good  
496 other than to confuse you, and as we look over the situation, we  
497 would say that too many souls rationalize their situation already  
498 without adding to that. Very well.

499

500 \*\*\*: Then it seems that there is no influence from other  
501 dimensions on our particular earth existence?

502

503 C: No.

504

505 \*\*\*: But is it not conceivable with space travel and whatever that  
506 perhaps sometime we will encounter some other creatures from another  
507 dimension?

508

509 C: Only those dimensions that would relate directly to the

510 material manifestation, but when you speak of dimensions in the  
511 term of schooling processes, no.

512

513 \*\*\*: Then you are saying that it is possible to encounter  
514 creatures from another planet, admittedly in the material-type of  
515 a manifestation. But that is possible?

516

517 C: Yes.

518

519 \*\*\*: Then there are all sorts of implications that you could  
520 entangle your karma with these other creatures and then perhaps  
521 later reincarnating into earth at a time where the technology  
522 couldn't get you back there that you could get yourself into a  
523 terrible blind alley that you would have dirty linen all over the  
524 universe and would find it hard to get things right again.

525

526 C: That is all a possibility, (\*\*\*), but we would suggest not  
527 worrying about it since the material manifestation will not be  
528 around that long to involve itself to such a degree. But it is a  
529 possibility. In fact, there have, or shall we say, there has been  
530 a few experiences of involvement.

531

532 \*\*\*: Would you mean these stories of people who have been taken on  
533 to spacecrafts and so forth?

534

535 C: Let us leave it at that. Nothing like tickling the imagination  
536 a little.

537 \*\*\*: Were you referring to creatures of another dimension on this  
538 level, on this earth, you might say, although they are on a  
539 different spiritual level?

540

541 C: There are dimensions related to the material manifestation or  
542 to this school, and there have been some interplay or exchanges,  
543 but that is what belongs to this particular avenue or to this  
544 particular scenario and has nothing to do with the broader

545 understanding of dimensions that we were using or other schools or  
546 other paths.

547

548 \*\*\*: I am looking for a way to classify things. The world of  
549 formation that you mentioned is one of the other things that are  
550 out there. Would that be considered to us a different dimension  
551 related to the material or is it something else?

552

553 C: No, you could classify it as a dimension related to this  
554 material manifestation, but again, we shy away from such terms as  
555 dimensions, because they conjure up very inaccurate pictures. Do  
556 you understand?

557

558 \*\*\*: Yes.

559

560 C: They are processes of existence or states of existence. For  
561 your conscious state now we would say that it is a state of  
562 existence, but when you talk of your ability to utilize influences  
563 beyond the physical dimension or the physical state, then we would  
564 use states of existence. Do you understand?

565

566 \*\*\*: Not really.

567

568 \*\*\*: They made it plural.

569

570 \*\*\*: Yes.

571

572 C: We are simply avoiding the term "dimension," replacing that  
573 word with "states of existence" in reference to the activities of  
574 this creation that go beyond the material. Do you understand?  
575 Simply another way of avoiding the word "dimension"? Do you  
576 understand now?

577

578 \*\*\*: Yes.

579

580 C: Very well.

249 question, the answer to the following question. Would knowing the  
250 secrets of the pyramids be helpful in our spiritual growth?

251

252 C: If you wish to resort to the mystical or occult methods, then  
253 the knowledge of the pyramids would be necessary. If you wish to  
254 bring yourself under the New Dispensation given to you by your  
255 Infinite Father the knowledge of the pyramids are useless. If  
256 you choose the old way you bring upon yourself a much more difficult  
257 road. If you accept the dispensation given to you, then you walk  
258 a much easier road to perfection or your at-one-ment with the  
259 Infinite Father. To play with the pyramids is no harm, but to become  
260 involved in their significance, we suggest this is foolishness.

334

335   C: The white pyramid referred to does exist. The significance,

*Mysteries of the Universe*  
*The Building of the Pyramids*

*Selection # 3*

*Pyramids were discussed on 78-01-14, the 37-B Trance.*  
*The word "pyramids" was first found on page 631, line 854.*

844     \*\*\*: What about the advanced technology of the  
845     Atlanteans and their reported relationships with the  
846     pyramids in relationship to this move and all the other  
847     moves? What happened to those technologies?  
848  
849     C: By the time Atlantis had reached its pinnacle of  
850     technology the land masses had definitely stabilized to  
851     a much greater degree than the earth had known or,  
852     shall we say, to a much greater degree than the earth  
853     had ever known. At that time they did move out away  
854     from their own continent. Since the pyramid was  
855     mentioned, the pyramid that is in Egypt, the Great  
856     Pyramid, was part of the Atlantean effort to establish,  
857     shall we say, power lines or power sources all over the  
858     globe. In the earlier years of their glory they were  
859     basically a good people. They had, shall we say,  
860     humanitarian desires, and they were interested in  
861     helping those that were not, shall we say, as advanced  
862     as them. They were very stingy with their technology.  
863     In other words they did not pass their knowledge to all  
864     the other countries or all the other people of the  
865     world. They would be beneficiaries; they would be as  
866     caretakers to the less civilized people, but they would  
867     not give their technology to those people. They did

868 not want competition for control. They wished to be  
869 the absolute rulers of all that existed. Do you  
870 understand this?

871

872 \*\*\*: Yes.

873

874 C: When the problems came to the inner workings of  
875 Atlantis, the government, the social structure, then  
876 they began to withdraw their missionary, shall we say,  
877 efforts and in so doing you have, shall we say, remains  
878 of some of that that they had in their control, that  
879 they used, such as the pyramids. Of course, some of  
880 the Atlanteans did stay in those areas, but very few.  
881 Most of them were called back to their own country  
882 because of the inner turmoil that was going on there,  
883 the civil strife. Although some did stay, they were  
884 few in number, maybe half a dozen here or a few there.  
885 They were quite dedicated to their own and those that  
886 were not of their own kind were nothing more, shall we  
887 say, than a higher form of animal. So that when those  
888 that were left in those lands, those that had decided  
889 to stay, as age came upon them and their passing came  
890 there were no others to replace them. At best would be  
891 their children and through the natural processes of  
892 time, those children that were left then soon forgot  
893 the existence of Atlantis, the knowledge that their  
894 fathers and mothers had left with them. Do you  
895 understand this?

896

897 \*\*\*: Yes. Then wouldn't the Atlanteans when they

898 moved from Atlantis, wouldn't they have brought that  
899 technology with them?

900 C: The technology that is referred to does not  
901 necessarily mean technology as you think of it today.  
902 You see, man has traversed time from the height of  
903 Atlantis to now, and in that time his ideas of  
904 technology are somewhat different than the Atlantean's  
905 ideas of technology. Much is said about mechanical  
906 technology, true there was a degree of mechanical  
907 technology, but the true technology was that technology  
908 of the mind and the abilities of the mind. The  
909 greatest moves of the Sons of Light were basically in  
910 an easterly direction and with the Sons of Light they  
911 maintained the highest degree of awareness concerning  
912 the spiritual abilities, the natural properties of  
913 their own being. So that much of the technology that  
914 man relates to in his terms was not necessarily  
915 mechanical technology but was more mental ability  
916 dressed up in a mechanical covering. Do you understand  
917 this?

918

919 \*\*\*: Yes.

920

921 C: There was definitely use of crystals and the  
922 natural ability of sun power. There was awareness of  
923 the workings of high-frequency sounds, of magnetism, and  
924 what have you. But these have very little mechanical  
925 working pieces. It was quite easy when an Atlantean  
926 wished to move from place to place to enter, shall we  
927 say, a vehicle and through the processes of the mind

928 and, shall we say, an apparatus that was part of the  
929 vehicle cause the magnetic fields of the earth to  
930 change to the degree that that individual wished. Also  
931 the use of energies that man does not really, shall we  
932 say, understand yet or have full knowledge of yet. Now  
933 there was a certain amount of technical technology  
934 naturally needed, a certain amount of mechanics needed,  
935 but this was a minimum, and basically, if these actual  
936 mechanical pieces were to be viewed today, they would  
937 hardly be recognized as advanced technology. So the  
938 technology even at the height of Atlantis was still the  
939 manipulation of the spiritual powers. There was a  
940 sharp decrease though in these powers with Atlantis.  
941 When things became so, shall we say, corrupt in its  
942 height, the decrease in these powers were at a, shall  
943 we say, super-escalated rate. So that by the time the  
944 third set of quakes came, this ability was practically  
945 nil.

*The Building of the Pyramids*

*Selection # 4*

*Pyramids were discussed on 78-04-08, the 42nd Trance.*  
*The word "pyramid" was first found on page 701, line 347.*

347     \*\*\*: Well, also, we were wondering if you could explain the pyramid  
348     power lines a little bit more. What kind of power was it? My  
349     understanding was they beamed something from pyramid to pyramid.

350

351     C: The power lines, as you refer to them, was a, shall we say, a  
352     vibration, an electromagnetic vibration sent out from point to point,  
353     and during the different periods of man some of his vehicles used  
354     these lines of vibration to propel themselves. There were not  
355     actually physical connections between these points that collected the  
356     power.

357

358     \*\*\*: Would that be from country to country?

359

360     C: The effort, the original effort, was to completely encompass the  
361     entire earth with a grid of these power lines, but this was never  
362     really accomplished.

363

364     \*\*\*: Were they to travel in a space vehicle or just the physical  
365     form or ... ?

366

367     C: No, they would travel in vehicles, not space vehicles, and we  
368     mean this in relationship to outer space but in vehicles across the  
369     surface of the earth and under its waters.

370     \*\*\*: There were pyramids under the waters also?

371

372     C: It was not necessary to have pyramids under the water. On the  
373     land was sufficient. These power lines or focusing segments of the

374 power source could be adjusted so that through what you would more  
375 easily understand as antennas, this could control or this could use  
376 the power sources underneath the water.

377

378 \*\*\*: Where did the energy, the electromagnetic energy come from that  
379 was projected out of these pyramids?

380

381 C: It was a combination of solar energy plus the natural magnetic  
382 energies of the earth and combined in a crystal and the structure of  
383 the crystal. All elements in God's creation have a vibratory rate  
384 and by controlling that rate through natural processes much can be  
385 accomplished. So, the sun's energy was used, shall we say, to increase  
386 the vibratory rate, and there were mechanisms in which to control it,  
387 but these were extremely simple things.

388

389 \*\*\*: Thank you.

390

391 C: Many of the vehicles used in transporting individuals or cargo  
392 were nothing more than shells with wheels if they were to travel  
393 across the surface of the earth.

394

395 \*\*\*: What caused their fall?

396

397 C: Greed, selfishness. That is always the cause of fall.

*Mysteries of the Universe*  
*The Building of the Pyramids*

*Selection # 5*

*Pyramids were discussed on 78-07-08, the 47th Trance.*

*The word "pyramid" was first found on page 778, line 242.*

195 \*\*\*: All right. Thank you. There is another question. We need  
196 something perhaps very interesting about Atlantis, something that  
197 would interest or greatly interest people in this particular time  
198 period and be catchy, something that again would make them want to  
199 buy the article. For instance, a particular artifact may be found, or  
200 an invention they had similar to our inventions, something like this.

201

202 C: How would something along the social lines and the social  
203 influences be, something that everyone could more closely relate to,  
204 instead of something that would only be vaguely interesting to  
205 others, to a large group?

206

207 \*\*\*: Sure

208

209 C: Then why not use some of the information that we have already  
210 given you such as the present rock music, which is a direct  
211 descendant of music used not only in Atlantis, but in Mu and Lemuria.  
212 This form of music at one time was used to instigate or, shall we  
213 say, to excite the very basic drives in man. Consequently, the young  
214 people today listening to this horrible noise find themselves taken  
215 away from the spiritual aspects of life and brought closer to the  
216 physical aspects or the animalistic aspects of life. Much of the  
217 drugs used today are quite similar to the drugs used in Mu, Lemuria,  
218 and Atlantis to have a, shall we say, instantaneous rise in  
219 consciousness which was, of course, foolish, since it turned out to  
220 be hallucination more than any true awareness of the different levels  
221 of consciousness. On occasion there is a glimpse here or there of a

222 more intense physical awareness which often passes as a spiritual or  
223 a conscious awareness.

224 The present efforts at cloning are nothing new, where in Mu and  
225 Lemuria, part of the Lemurian experience, much of the cloning was  
226 done more from a psychic level or a psychokinetic level which, of  
227 course, as time passed the need for, shall we say, extensions of  
228 these properties necessitated elaborate laboratories, but the  
229 present-day cloning is very crude, compared to what the Lemurian and  
230 Mu civilizations had.

231

232 \*\*\*: Could a particular clone be used as a second body by someone  
233 that could transfer his mind to that body?

234

235 C: No, there are limits in nature and in the divine law. The clone,  
236 an artificially created being, now that is one that has been created  
237 by man, cannot hold a consciousness or a soul or a spirit as you. Now  
238 the clone can be trained similar to an animal, an animal does have  
239 a conscious level but not near that which you have, so that there is,  
240 shall we say, a mimic situation, but not a true conscious level or a  
241 spirit or soul. Now, if you were to take into consideration the  
242 latter day uses of the pyramid you would begin to see then where this  
243 was attempted. Now, although originally the pyramids were used as a  
244 source of power for transportation and what have you, later on they  
245 were also used then as a source of or, shall we say, an effort to raise  
246 the consciousness of true beings and those half-animal and half-man  
247 beings. If you recall when we discussed that, you see, the situation  
248 had gotten to the point where there was such a confused mess or such  
249 a confused group of beings that the "normal" populace could not tell  
250 the true man-animal from the true animal-man. Do you understand?

251

252 \*\*\*: Yes.

253

254 C: So as in a, shall we say, moment of despair, now that is those  
255 who wished to correct the situation, those who were working on the  
256 positive side, attempted to use the pyramid structures and other

257 devices to raise the consciousness or try to instigate or try to  
258 implant a soul of some sort into the entire mass, this entire  
259 subservient or sub-existing mass. Do you understand?

260

261 \*\*\*: Yes.

262

263 \*\*\*: No, how could you force a soul into a clone?

264

265 C: You cannot, that is the point. But they had gotten themselves  
266 into such a situation that they were not sure which was which, so as,  
267 shall we say, a godly effort they just worked with all of them,  
268 hoping that if anything could be done that at least they were making  
269 an effort. Do you see?

270

271 \*\*\*: Seeing the pyramid in the astral once, I noticed there was a  
272 globe shape at the apex of the pyramid instead of a triangle-shaped  
273 piece as has always been said. Is that correct?

274

275 C: Well, both are correct. Actually, the actual top or the point was  
276 interchangeable. Over the period of times depending on what their  
277 intentions were, the actual top of the pyramid could have either been  
278 used as a ball, a round sphere, or as an actual pointed, four-sided  
279 pointed affair; at other times though you would have simply a needle  
280 or, shall we say, an antenna at the top. We find it kind of unusual  
281 that such information is not widely known at this time. It seems as  
282 though man's intellect has channeled the truth into only one aspect.  
283 In reality the pyramid tops or caps were changed from time to time.

284

285 \*\*\*: For what particular purpose? What were they used for, the  
286 different shapes?

287

288 C: There was not any real difference, shall we say. It simply was  
289 the same effect basically as the point. In other words, the ball and  
290 the smaller pyramid that would have been placed on top of the larger  
291 one, basically all had the same effect. It was just an effort to

292 search out or seek out something different. Now, the pointed  
293 capstone or the actual miniature pyramid that set on top of the  
294 larger pyramids, this came later, in that this was used more or  
295 less to heighten the awareness of individuals. The cap or the top  
296 used for the power or used to generate power was more of a cylinder  
297 effect. Now, the ball came first actually. And although there were  
298 some efforts to improve the energy gathering abilities over the ball  
299 then the cylinder or, shall we say, yes, cylinder would probably be  
300 the best description, the cylinder-shaped crystal was much more  
301 effective. With this then it could be used more in destructive ways as  
302 opposed to constructive ways. The ball capstone was more, shall we  
303 say, of a peaceful force.

304

305 \*\*\*: I saw it as a blue crystal.

306

307 C: In actuality, the ball was solid gold. Now, possibly the blue  
308 that you saw would be your way of viewing the energy that was  
309 collected because at times under proper atmospheric conditions there  
310 was a definite glow, especially in the evenings. In the daylight the  
311 glow was not quite as apparent, but in the evenings or nights this  
312 glow would be of a light blue not a dark blue, and it did actually  
313 glow. But the true ball itself which would have been approximately  
314 seven feet in diameter was solid gold.

*The Building of the Pyramids*

*Selection #6*

*Pyramids were discussed on 82-10-14, the 109th Trance.*  
*The word "pyramids" was first found on page 1763, line 607.*

607 \*\*\*: Could you tell us please how the pyramids were built? That  
608 is, any of the pyramids, Egypt or Mu, Lemuria, Atlantis?

609

610 C: Through the mental processes.

611

612 \*\*\*: The same powers that could also be turned to destruction?

613

614 C: Power is neither good nor bad. Power in itself is neither good  
615 nor bad. Those that apply it determine whether it is good or bad.

616 Does that answer your question?

617

618 \*\*\*: Yes.

619

620 C: No, it does not.

621

622 \*\*\*: As far as power is concerned, but not the original question.

623

624 C: Pursue it.

625

626 \*\*\*: Did they simply will the construction, will the blocks to  
627 move? I suppose that is the question.

628

629 C: Basically, it was a matter of willing, but they needed help.

630

631 \*\*\*: From crystals again?

632

633 C: No, only partially.

634

635 \*\*\*: Then from what?

636

637 C: Special appliances. Basically, metallic rods held in hands.

638 One was a barrel-shaped rod; the other was a staff rod. The high

639 priest then would carry these, and it was used as a tuning mechanism.

640 The assistant priests or the common priests then would concentrate,

641 and through a means of chanting which would have been strictly

642 cosmetic in actuality, the chanting served their conscious mind for

643 concentration, but the chanting in itself served no other purpose;

644 focusing these thoughts then and the high priests holding these

645 rods, touching the stone or the block that had to be moved,

646 created a field that negated the gravitational force, thus allowing

647 that stone or that rock to rise. Do you understand?

648

649 \*\*\*: Yes.

650

651 \*\*\*: Somewhat, are you talking of vibrations? Through some kind of

652 vibratory energy that the rock gained an anti-gravitational state?

653 Is that following you?

654

655 C: The mind emanates an electrical field. This electrical field can

656 be focused. Do you understand?

657

658 \*\*\*: All right.

659

660 C: The priests would concentrate on the rising of the rock or the

661 elevating of the rock. Do you understand?

662

663 \*\*\*: Yes.

664

665 C: They were of one mind then. The high priest which held

666 these appliances, with the use of the appliance would be able to be

667 what you could refer to as a power element or the priest with these

668 appliances then would accumulate these electrical impulses derived

669 from the extreme concentration and would trigger then, with the help  
670 of these appliances, a force that would negate the magnetic field in  
671 relationship to the object. Now the priests would lay hands on the  
672 object or the stone. Do you understand?

673

674 \*\*\*: Yes.

675

676 C: The high priest would walk ahead or behind of the stone and one  
677 could consider then, because of the appliances, the high priest would  
678 be used as the power source to cancel out the gravitational force  
679 on the rock itself. This would be done in a manner that is hard to  
680 explain because the concept is not in line with man's normal  
681 understanding but what constitutes material form but atoms. Again,  
682 what are atoms but fields of energy or electricity, and so by  
683 activating the molecular structure of the stone in such a way it  
684 would eliminate the relationship with the magnetic field or with  
685 the gravitational field, thus causing it to elevate or levitate.

686

687 \*\*\*: Is this the same process that would have been used in cutting,  
688 perhaps I am using the term loosely, but cutting the stone from  
689 the actual quarry and transporting it to the site where the pyramid  
690 was to be built?

691

692 C: This would be a process used in moving the stone. In some  
693 cases those stones that were too large to truly be supported on  
694 barges and what have you would necessitate a constant activity as  
695 we have described it. Do you understand this?

696

697 \*\*\*: Yes.

698

699 C: The cutting of the stone can be done basically again through  
700 the same principle of concentration but because of the need to  
701 incorporate many individuals in this process more appliances were  
702 needed. Do you understand so far?

703

704 \*\*\*: Yes.

705

706 C: Rough cutting would have been done basically at a manual level.

707 Refined cutting and polishing then would have been done through

708 appliances such as crystals. The focusing of the mental powers

709 for direction and the powers of the sun, one could shear a

710 stone to within one one-thousandth of an inch. Again, such an area

711 will serve no purpose.

712

713 \*\*\*: Oh, one more question please. There has been quite a bit

714 of talk or a school of thought about the Great Pyramid having been

715 built perhaps under great inspiration and acting as a prophecy for

716 man. Is there truth to that theory?

717

718 C: It can be used as a point of prophecy, yes. That was part of

719 the intent.

720

721 \*\*\*: Would you give us more information on that or be more specific

722 so that we could understand what you are saying?

723

724 C: Using the Holy Cubit as a measurement, you will have your

725 answer.

726

727 \*\*\*: Do we have access to the Holy Cubit?

728

729 C: It is a measurement. It is a measurement.

730

731 \*\*\*: Thank you.

732

733 \*\*\*: Just to clarify. The description of how this was done

734 applies to the construction of all the pyramids, Egyptian, in Mu,

735 in Lemuria, in Atlantis, all were constructed this way?

736

737 C: Basically, yes. You must remember that the Great Pyramid of

738 Egypt is somewhat older than what you may suspect, and also the

739 builders were not truly Egyptian.

740 \*\*\*: Did this process do anything to the material, to the stone?

741 Did it change it in any way?

742

743 C: No.

744

745 \*\*\*: Were the pyramids actually used as tombs by any of the

746 civilizations, the Mu, Lemurians, the Atlanteans?

747

748 C: The pyramids that most puzzle man have not been constructed for

749 the purpose of tombs. They symbolized, if one were to understand

750 the true simplicity of their purpose, it symbolized the gateway to

751 spirituality. Man's interpretation of their purposes have become so

752 overlaid with the egotism of interpretation that the true purpose

753 of the true essence of their construction has been lost.

754

755 \*\*\*: And the key to that is the cubit?

756

757 C: That tells the prophecy. The prophecies are based on that

758 measurement.

759

760 \*\*\*: The Holy Cubit would represent how long a period of time, a

761 century?

762

763 C: That information is readily available in books.

764

765 \*\*\*: The Great Pyramid now, the other pyramids that are in the

766 vicinity in Egypt, they were not built by the same people?

767

768 C: Well, there was a relationship.

769

770 \*\*\*: But they came much later?

771

772 C: Somewhat later, yes. The Great Pyramid and that surrounding

773 structure was considered a holy place and a place of spiritual

774 illumination so what you have in that basic area was what might be  
775 referred to as a temple complex.

776

777 \*\*\*: Then it was built when the religious or governmental  
778 organization of Atlantis would still have been considered of the  
779 Sons of Light, during a good period, a spiritually high period?

780

781 C: Toward the end of the apex of that civilization, so you would  
782 have a mixture of both good and negative. Do you understand?

783

784 \*\*\*: But the purpose, the reason to build it was . . . ?

785

786 C: First, spiritual, then as a power source.

787

788 \*\*\*: A good reason first?

789 C: Yes. You see, all things are related, all things are related;  
790 and yet there are certain elements that are neutral and can be served  
791 for either good or for something less. The Great Pyramid was built  
792 first by those who were considered the initiates or those that had  
793 the power, were built first as a source of spiritual enlightenment,  
794 then secondly as a point of this power grid that we spoke of  
795 before.

796

797 \*\*\*: The pyramid-like structures that exist now in other parts of  
798 the world like in Mexico and Central America, were the same  
799 processes and the reasons used for those?

800

801 C: Yes. You must remember that the system that instigated these  
802 activities or, let us say, the class that instigated these  
803 activities came from the priest system or the priest caste or the  
804 priestly caste. Do you understand?

805

806 \*\*\*: Yes.

807

808 C: Within the overall system were many individual segments or

809 orders, and their structures may differ slightly from another  
810 order's structures. Do you understand? Their choice of design or  
811 style may have differed slightly? Do you understand?

812

813 \*\*\*: I think so. Do you mean more than one group within the  
814 society was building buildings simultaneously?

815

816 C: Temples and buildings were built by two different groups.  
817 Temples were built by the priestly order; buildings by the  
818 architectural orders that laid more in the civil area and all its  
819 divisions. But within the priestly order, within the priestly  
820 caste, you had a number of different orders who had their own  
821 style. Do you understand?

822

823 \*\*\*: Yes.

824

825 \*\*\*: It is eight minutes after ten. Should we end this?

826

827 C: Let us cover one more question.

828

829 \*\*\*: Several years ago there was a man in Florida that single-  
830 handedly built these structures out of huge blocks and rocks and so  
831 forth, and when asked how he did it, he said he had a process similar  
832 to the way the pyramids were built. Is there any truth to this?

833

834 C: You see any evidence of anything else?

835

836 \*\*\*: No.

837 C: The secret is not such a great secret, and it is not so well  
838 hidden. Does that answer your question?

839

840 \*\*\*: Yes. Does that mean that presently it would be possible to  
841 duplicate the pyramids or has the density of matter increased such  
842 that the methods that worked then perhaps would not work now?

843

844 C: Your relationship to the density of matter is in proportion to  
845 your spirituality, so that any one of you could be instrumental in  
846 rebuilding a pyramid, even today.

847

848 \*\*\*: Thank you. That is most interesting.

849

850 C: Such works are truly no feat of the soul. They are only feats  
851 of the physical body and the physical mind. You see, you must  
852 look for the true source of activities. What can your physical body  
853 do in relationship to a stone that may weigh ten tons? Can your  
854 physical body move that stone?

855

856 \*\*\*: No.

857

858 C: So then it must be something else. It must be something far more  
859 powerful than your physical body and absolutely more powerful than  
860 that stone. If that be the case, then what else is there but your  
861 own real source of activity.

862

863 \*\*\*: I don't find it hard to understand that the soul is capable  
864 of moving rocks that weigh tons and tons; it just seems that  
865 these abilities are something that by and large we have lost and  
866 forgotten and really don't have much of an idea of how to approach  
867 it.

868

869 C: You have lost those abilities because you do not choose to  
870 think in a godly manner, in a godly way. You choose to forget your  
871 true potential. You choose to ignore the fact that you are  
872 basically a god who is doing less than what he could do. You are  
873 forgetting that you are an image of the Divine Source. Even when  
874 you are given a personal example of what you can do in the form of  
875 Christ, you still refuse to accept your places. Isn't it far  
876 greater to rise above physical death than to move a mere stone?  
877 For in rising above the physical death, you must utilize your  
878 potential and overcome all of the natural laws of creation. You

879 must control absolutely and with absolute preciseness the laws of  
880 physical nature to rise above the physical death. Does that answer  
881 your question?

882

883 \*\*\*: Yes.

884

885 C: Moving mere stones, regardless of their sizes, is truly nothing  
886 in comparison to what you are actually capable of doing and what  
887 you are actually doing presently. If you could understand one  
888 speck of what we have said about time and about the creation that  
889 you are involved in and what we have said this evening about  
890 utilizing this spiritual grid, if you could understand one word of  
891 what we have said, the powers needed to utilize and create the  
892 material manifestation from this spiritual grid would make moving a  
893 stone absolutely nothing, not even worth considering. The  
894 magnitude of the power necessary to create the material scenario  
895 that your soul is going through is far greater than any small,  
896 isolated element of that total picture. So you see, you are capable  
897 of activities that you cannot even comprehend in the material, and yet  
898 you worry about moving a small stone? Or doubting your ability to  
899 do such. What did Jesus say? He gave each and every man in this  
900 present age the key; if you wish to move a mountain, know that you  
901 can do it and it will be moved. Are there any other questions?

*Mysteries of the Universe*

*The Shroud of Turin*

*Selection #1*

*The Shroud was discussed on 76-04-09, the 19th Trance.*

*The word "Shroud" was first found on page 275, line 1352.*

1352 \*\*\*: Is the Holy Shroud of Turin that of our Lord Jesus Christ?

1353

1354 C: Yes.

*Mysteries of the Universe*

*The Shroud of Turin*

*Selection #2*

*The Shroud was discussed on 81-10-17, the 101st Trance.*

*The word "Shroud" was first found on page 1555, line 385.*

382 \*\*\*: I had a question when you said about the moment of  
383 resurrection there was a -- I forget exactly how you put it -- a  
384 tremendous radiation. Is that what left the image on the cloth  
385 that we know as the Shroud of Turin?

386

387 C: Yes. Now when we use such terms, many minds go to some form of  
388 action that is destructive. You must learn that there are  
389 tremendous releases of power that are not destructive whatsoever,  
390 and in this case at the moment of Resurrection when the soul was  
391 ready to utilize the physical container again, then it simply  
392 infused back or went back into the physical container, if you wish  
393 to choose those words, and in that moment the soul, the glorified  
394 soul, then radiated so strongly from the physical container, had  
395 such power that it left a very simple impression on some cloth.  
396 You see, as we look at it now, we understand the beauty of the  
397 soul, we understand the beauty of God's Creation; we do not  
398 minimize it; we respect it far greater than any of you can possibly  
399 respect it now, but we also know that God our Father has given us  
400 these things not to sweep us off our feet into accepting Him, but  
401 to realize that it is only a very natural part of being in love  
402 with God, shall we put it that way, wanting to be part of Him and  
403 wanting Him to be part of us. Every time a soul leaves the  
404 material and that soul has made a sincere effort to undo what he  
405 has done to himself, we see an explosion of power and light in the  
406 heavens, now of course, you realize we are talking in symbolic  
407 terms; but we see an explosion of light in the heavens, and we are  
408 not fascinated or excited by the explosion, but we are excited and

409 joyful about what has transpired, not the mechanics of it, but the  
410 joy in knowing that we have another with us, that we are fulfilled  
411 that much more. Of course, we understand that you cannot fully  
412 understand what we are saying, and that you cannot fully understand  
413 our feelings and the way we look upon such things. Very well.
