UNIVERSAL BEing: A Perspective for Growth

September 10, 1983

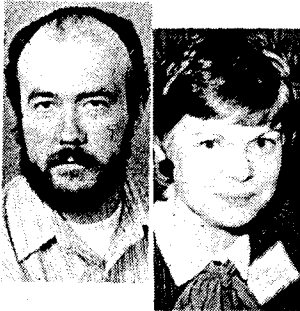

BRUNNERDALE SEMINARY

Canton, Ohio

We want you to be among the first to know that Deep Trance Psychic William LePar and members of SOL are again privileged to participate in a conference which will be hosted by PEGASUS Productions September 10th on the scenic grounds of Brunnerdale Seminary, 4001 Brunnerdale N. W., Canton, Ohio. We're excited about the conference theme, **UNIVERSAL BEing: A Perspective for Growth**. We believe this theme lends itself exceedingly well to the concepts presented to us throughout the past decade by the Council, the source which speaks through Bill while he is in the deep catatonic trance state. It is now our pleasure to share the conference details with you!

DENNY & SHERILYN HIGHBEN

Echos from Eden

Denny and Sherilyn were among your favorite speakers at our Life After Death Mini-Conference March 26th.

In **Echos from Eden**, the Highbens will review a portion of the Council's most inspirational material, giving you clear insight into why we are what we are. You will be taken on a journey beginning with the Creation through man's existence on the continents of Mu, Lemuria, and Atlantis, to the world we know today. You will be given a concise explanation of man's role in creating the conditions in which he lives, dies, and again lives. In quoting Denny, he and

Sherilyn will also "touch on some tips for making this life our last stop before returning to our rightful home."

DICK DANIELS

Healing and Health Workshop
(Healing Techniques)

You'll remember Dick Daniels, SOL's gifted radio personality, for his fine role as moderator during our Life After Death Mini-Conference. Dick has an intense interest in researching **Healing and Health**. A great deal of the material Dick will present to you has been gleaned from the Council because of Dick's strong desire to gain extensive knowledge on all facets of spiritual healing -- and share it with others.

The Council has generously given SOL a wealth of information on **Healing and Health**. Dick will share with you their perspective on these topics. Dick believes that of all the information the Council has presented dealing with **Healing and Health** their key statement is this: **"All cures (healing) must be achieved in the spiritual first."** Many people have asked, "Why am I faced with a serious illness?" "Why is my child suffering?" Inspirational insights will be given as to how man may achieve wholeness.

HELEN CROWE

Herbs: The Tree of Life (Healing & Nutrition)

Helen Crowe is well respected throughout Ohio for her knowledge of the large variety of herbs provided for us by our Creator and how man may best use them for his benefit.

Helen began her intensive research of herbs and nutrition in 1977. She has studied under such notables as Dr. William McGrath, a naturopath from Minerva, Ohio, and Dr. Harold Maner, founder of the Metabolic Research Foundation, Indiana, and former dean of the Biology Research Department at Loyola University, Chicago.

DEEP TRANCE PSYCHIC WILLIAM ALLEN LEPAR

Meditation & Psychic Phenomena Workshop (Meditation & Psychic Experiments)

SOL's Bill LePar works in many areas of the psychic. You know him best for his work with the Council through the achievement of the rare deep catatonic trance state similar to that reached by the late well-known psychic Edgar Cayce.

In Bill's session he will explain the value of meditation - how it can be used as a tool for getting in touch with one's inner self. And he will then guide you through meditation. Bill will also tell you of the Council's statements concerning psychic phenomena - a natural part of everyone's being. And, if time permits, Bill will conduct psychic experiments, experiments in which you are invited to participate.
